Dow Women's Center

**Welcoming Your Baby
into the New World**

Brazosport
REGIONAL HEALTH SYSTEM

At Brazosport Regional Health System, we provide one of the best women's centers in Brazoria County. In fact, according to Press Ganey, the Dow Women's Center is ranked above the 90th percentile in the country for patient satisfaction. During this heart-filled time, we are committed to deliver a perfect experience for such a magical event. Our top of the line services, board-certified physicians, and compassionate nurses are here to welcome you to parenthood.

The Dow Women's Center is ranked in the top 10th percentile in the country for patient satisfaction.

For the mother and baby, our nurses have taken an extra step to be certified in maternal care and newborn nursery. To help you prepare for the magical event, childbirth classes are scheduled by certified childbirth educators. Topics include:

- Phases of labor
- Discomfort of pregnancy
- Breathing techniques (demo and practice)
- C-sections
- Baby care
- Breastfeeding
- Post-partum care
- Handling a new born
- Dad's role in the process

For more information about days, times, and place of childbirth classes, please call the childbirth line at 979-285-1586. After delivery, a registered lactation consultant is available during the mother's stay and while they are home. Plus, written instructions for baby and mother care are given out during discharge.

The center also has a security system in place for our patients' privacy and for the safety of all newborns.

Our state of the art, modern day facility has 10 private rooms where the labor, delivery, recovery, and postpartum process occur in one suite, eliminating the need to switch rooms during your stay. The spacious suite is equipped with perfect overnight accommodations for the father and has a home like setting with soft colors and hardwood floors. Although most babies are room-in care, the Dow Women's Center has a level II nursery should the need arise. The center also has a security system in place for our patients' privacy and for the safety of all newborns.

Our facility is not the only way we make you feel right at home, our highly-skilled compassionate nurses are available 24 hours, 7 days a week. Let us join you in welcoming your baby into the new world.
